

## CASE HISTORY: A LIFT STATION IN GUYTON, GEORGIA

### Problem:

The city received complaints from a resident who was unhappy about odors emulating from a lift station that was very close to their home.

### Solution:

Syneco Systems installed a 3'x3' Peacemaker® odor control system to eliminate odors at the lift station.

### Results:

Our Peacemaker® odor control system has effectively eliminated the H<sub>2</sub>S odors to 0 PPM. The city no longer has received complaints, and are a happy and satisfied customer.

**H<sub>2</sub>S Influent: Average= 35 PPM Peak= 185 PPM**

**H<sub>2</sub>S Effluent: Average= 0 PPM Peak= 0 PPM**

### Influent Test 01/20/2019- 03/07/2019
