

## CASE HISTORY: A PUMP STATION IN SOUTHERN CALIFORINA

### Problem:

Customer received several odor complaints and had corrosion control issues at this pump station in Southern California.

### Solution:

Syneco Systems installed two 8' x 5' Peacemaker® odor control systems, running in tandem, used with our Persnickety® Converting and Polishing media.

### Results:

Syneco Systems Inc. has been providing odor and corrosion control solutions for this customer in Southern California, for over 15 years.

**H<sub>2</sub>S Influent: Average= 690 PPM Peak= 1,173 PPM**

**H<sub>2</sub>S Effluent: Average= 0 PPM Peak= 0 PPM**
