

## CASE HISTORY: SOUTHERN CALIFORNIA HIGHWAY COLLECTION SYSTEM PUMP STATION

### PROBLEM:

A municipality in Southern California contacted Syneco Systems for both odor and corrosion control for their collection system pump station. They were receiving several complaints regarding odors and they were also concerned about safety.

### SOLUTION:

Syneco Systems installed two Peacemaker® 6' x 5' Dry Air scrubbers, running in series, used with our patented Persnickety® Converting and Polishing media.

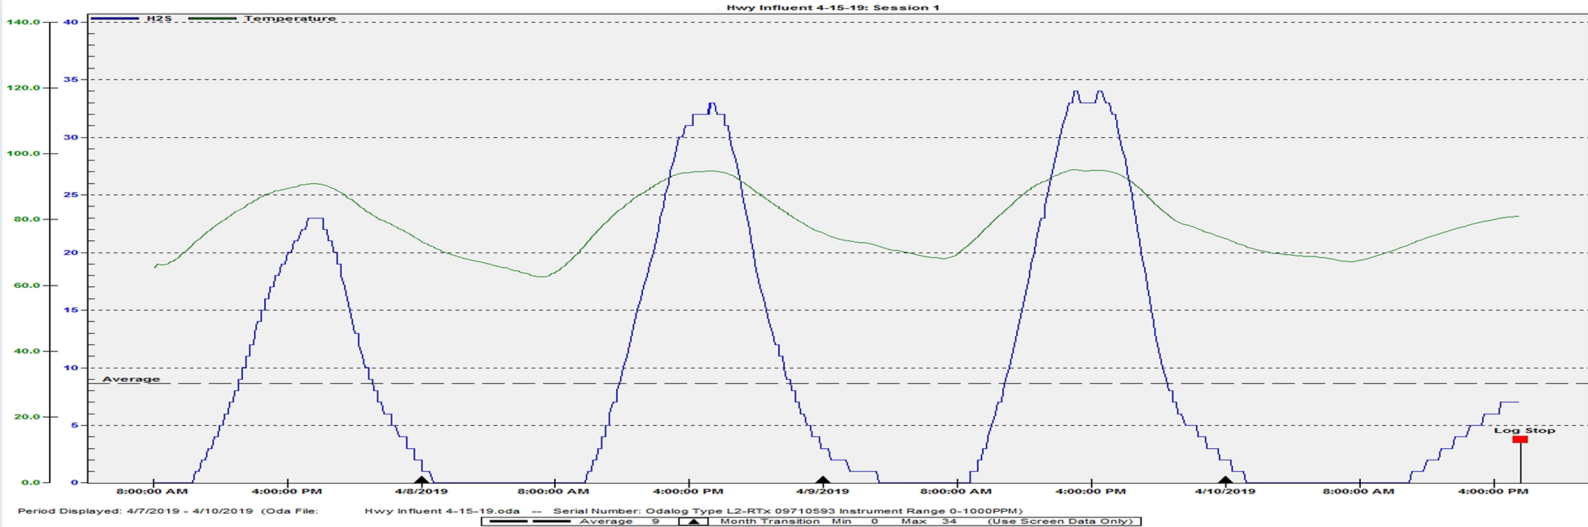

### RESULT:

Using our Syneco Systems Peacemaker® odor control system, with our patented Persnickety® Converting and Polishing media, they are achieving full removal rates.

**H<sub>2</sub>S Influent: Average= 9 PPM Peak= 34 PPM**

**H<sub>2</sub>S Effluent: Average= 0 PPM Peak= 0 PPM**

**Influent Test 04/07/2019-04/10/2019**

**Effluent Test 04/07/2019-04/10/2019**
